ABOUT ME

Recently graduated BCA professional with hands-on experience in Machine Learning, Deep Learning, NLP, and Generative AI. Completed an AI-ML internship at Avadh Web building end-to-end AI systems. Developed a strong portfolio featuring SecureX with Android FCM integration (YOLO-based deep learning security), multi-agent AI research pipelines, GenAI-powered automation tools, and more. Strong academic record (CGPA 8.67) with a passion for applying AI to real-world problems.

SKILLS

- **AI/ML:** Machine Learning, Deep Learning, NLP, Computer Vision (YOLO, CNNs)
- **Gen AI:** LLMs, Prompt Engineering, RAG, LangChain, AI Agents
- **Frameworks:** TensorFlow/Keras, Scikit-learn, OpenCV, React, Android Studio
- **Languages:** Python, Java, JavaScript, SQL, PHP
- **Tools & Concepts:** Firebase (FCM), Git/GitHub, VS Code, MySQL, REST APIs, Model Deployment

WORK EXPERIENCE

AI-ML Engineer Intern | Avadh Web

Nov 2025 – Jan 2026

- Built end-to-end ML pipelines covering data ingestion, preprocessing, training, evaluation, and deployment.
- Developed an Automated Email Replying System using NLP and LLM APIs, reducing manual email effort significantly.
- Architected multi-agent AI pipelines for research automation and collaborated with senior engineers on model optimization.
- **Tech Stack:** Python, Machine Learning, NLP, LLM APIs, Deep Learning, Git

PROJECTS

SecureX – Security Deep Learning + Android FCM App

2026

- Built a real-time threat detection and anomaly classification system utilizing YOLO and custom CNN architectures.
- Integrated Android FCM (Firebase Cloud Messaging) for instant push alert delivery on mobile devices.
- Implemented transfer learning and data augmentation to minimize false positives in live surveillance feeds with background services for reliable delivery and custom notification payloads.
- **Skills used:** Python, YOLO, TensorFlow, OpenCV, CNN, Java/Kotlin, Android SDK, Firebase FCM

Auto Email Replying System

2026

- Built an NLP and LLM pipeline that reads email context, classifies intent, and generates professional replies.
- Integrated smart routing logic that dramatically cut manual email handling time.
- **Skills used:** Python, NLP, LLM APIs, Prompt Engineering

Multi-Agent AI Research System

2025

- Designed LangChain agents (Researcher, Analyst, Writer) for automated research workflows.
- Implemented RAG and tool-calling for web search, summarization, and automated report generation.
- **Skills used:** Python, LangChain, AI Agents, RAG, LLM APIs

Smart Resume Builder (GenAI)

2025

- Created a GenAI module that auto-generates professional summaries with a live PDF preview.
- Implemented email verification, real-time editing, and structured PDF export.
- **Skills used:** HTML/CSS, PHP, MySQL, GenAI APIs, PDF Generation

House Price Prediction ML

2024

- Developed a supervised regression model predicting real estate prices based on area, rooms, and amenities.
- **Skills used:** Python, Scikit-learn, Pandas, NumPy

EDUCATION

Bachelor of Computer Applications (BCA) | BKNMU University

2023 – 2026

- **CGPA:** 8.67
- **Specialization:** AI & Machine Learning

Higher Secondary Certificate (H.S.C) | Savaliya Secondary School

Passed: 2023

- **Percentile:** 90.99%

ACHIEVEMENTS & HIGHLIGHTS

- **Recent BCA Graduate:** Completed BCA with a strong CGPA of 8.67 specializing in AI & Machine Learning.
- **Proactive Developer:** Built 7+ independent AI/ML and mobile projects spanning security, automation, and generative AI.
- **Open Source Contributor:** Maintains an active GitHub portfolio with public repositories demonstrating practical coding.
- **Industry Experience:** Gained production-level AI development experience through an internship at Avadh Web (Nov 2025 – Jan 2026).
